Re: Notice of *Ex Parte* Meeting in WT Docket No. 06-49  
Amendment of the Part 90 Rules in the 904-909.75 and 919.75-928 MHz Bands

Dear Ms. Dortch:

On September 13, 2006, Amy Mehlman, representing Progeny LMS, LLC, Dr. Raj Singh, and Columbia Capital's Jim Fleming and John Siegel met with Commissioner Robert M. McDowell regarding spectrum flexibility proposals in the above-captioned proceeding.

The meeting addressed the current plan of licensed and unlicensed uses for this band at 902-928 MHz and provided an overview of pending regulatory issues addressed in the Notice of Proposed Rulemaking that the Commission released on March 7, 2006, in this proceeding, including questions raised about spectrum sharing. Meeting participants discussed opportunities for Multilateration Location and Monitoring Service licensees and other users, including technology's role in enabling sharing.

Also described were spectrum-sharing opportunities for licensed and unlicensed users in other bands that will be facilitated by cognitive and other advanced wireless technologies, including the TV White Spaces spectrum at 700 MHz.

Marlene H. Dortch
